

FFP

CLEANING & MAINTENANCE

AS EASY AS 1,2,3.....

No harsh chemicals

No heavy scrubbing

No expensive deep cleaning

FLOORS FOR PAWS
style & durability

DO....

1. Vacuum any loose debris
2. Use a flat head mop with warm water and PH neutral detergent up and down the length of the planks
3. Spot clean spills, wee's and worse with anti-bacterial floor wipes asap.

DON'T...

1. Pull heavy furniture across your floor - use cushion pads if you are unable to lift the item
2. Use harsh chemical cleaners - you don't need them (and they can be detrimental to dogs)
3. Use a large amount of cleaning fluid as this can leave a residue on the floor making it slippery
